# Cooling & Heating Seat Ventilation Unit

# Cooling & Heating Seat Ventilation Unit

Ventilation mesh x4

Semiconductor refrigeration module x4

Air outlet pipe x4

Switch X1

Others

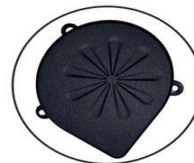

Control box X2

Wire harness X2

Exhaust pipe X2

Muffling box X2

Ventilation pipe X3

Turboblower X4

# Application

- *Make: Toyota*
- *Model: Land Cruiser*
- *Year: 2018 or later*
- *Applicable for driver & front passenger seat*

# Specifications

- *Working voltage:DC12V*
- *Working current:4A*
- *Working power:48W*

# Features

- *Function:Cooling, heating and ventilation for all seasons.  
Not air, but cooled or heated air!*
- *Type:Semiconductor innovative technology.*
- *Switch Type: OEM switch.*
- *Built-in defrosting and dehumidification.*
- *Durable, long life span and low heat loses.*
- *Easy and Nondestructive installation.*

# Installation
